

**DESIGN / PRODUCTION
OF MULTILINGUAL AUDIO STAGED CONTENT**

OUR BACKGROUND

Rédaction Prod is an agency that designs and produces multilingual audio staged content - audioguides for adults and children.

We have been creating cultural and tourist audioguide commentaries for over 12 years.

We were among the first to fully stage our audio guide scenarios:

- From writing the commentaries to the definition of the sound design, through to the direction of the voice over actors.

**Rédaction Prod is
a fun and interactive world, orchestrated by people
who are passionate about writing and sound**

Over the years, we have been able to develop a trademark savoir-faire and our philosophy is still the same...

- To always seek new ideas to highlight the features of your tour
- To work with the best writers, translators, actors, artistic directors and sound engineers.
- Encourage our teams to be more creative, imaginative, responsive and efficient...

**Without ever losing sight of our values
the quality of our productions
and our services**

OUR CONCEPT

**"SHOW THE STORY
INSTEAD OF TELLING IT"**

EMOTIONAL WRITING

Because for us, staging starts when we begin writing the commentaries...

We always strive to convey emotions and highlight the facts we are relating.

- Thanks to illustrated plays on words, verbs of action, interjections...
- Thanks to the talent of our voice actors
- Thanks to a finely crafted audio soundtrack...

Visitors are transported...

They can feel and live the story...

They can visualise...
